Personal profile

I am a self-taught front-end developer with a strong foundation in JavaScript, and React. My focus is building modern, responsive websites. Some examples of projects I have made can be found on my portfolio site, found [here](#).

Key skills

- **HTML, CSS, and JavaScript:** Proficient in writing efficient and organised code, and designing interactive and attractive web pages
- **React and React Router:** Skilled in creating dynamic and responsive user interfaces/components using React and creating paths with React Router
- **TypeScript:** Understanding of how to integrate type safety using TypeScript
- **Unit Testing with Jest:** Proficient in writing unit tests to ensure code reliability and maintainability
- **Responsive Design:** Expertise in developing mobile-first designs that provide a seamless user experience across devices
- **Version Control (Git):** Experience in using Git for version control, ensuring smooth collaboration and code management
- **Debugging and Troubleshooting:** Strong and methodical problem-solving skills to identify and fix bugs efficiently
- **User Experience (UX) Design:** Focused on creating accessible, user-friendly websites
- **APIs:** Experience with using third-party APIs to enhance functionality

Work Experience

Software Engineering Intern, Backspace

July 2023 – July 2024

- Used ReactJS, JavaScript, HTML, and CSS to build out a collection of components used to build webpages
- Assisted with front-end web app development for several projects
- Learned new skills as part of the role as required, as well as during personal time
- Collaborated with the backend on APIs and implemented them into the frontend

Event Staff, At Your Service (Hospitality Agency)

Feb 2019 – June 2019

- Provided high-quality service as a waiter and porter at various venues, maintaining customer satisfaction in fast-paced environments.
- Adapted quickly to different work environments and collaborated effectively with new teams.
- Developed organizational skills through tasks such as stocktaking, setting tables, and preparing work areas.

Education

Frontend Developer Course

2023 – 2024

- Learned HTML & CSS, JavaScript, and React, and used them to create multiple personal projects.

Acland Burghley School,

2017 – 2019

- BTEC in Applied Science and Maths
